

Signature Blueprint VSL v2 Script

— Dr. Tim Harrigan

Signature Blueprint VSL v2 — Improved Script

Prepared by: Richard Lobres / BizEx **Based on:** Fountainhead framework + VSL Checklist + Original v1 transcript **Target:** Busy entrepreneurs and professionals 35-60, US-based, \$100K+ income **CTA:** Book free Blueprint Consultation at <https://l.btrr.to/dSSt6> **Goal:** 9 out of 10 viewers take action

SECTION 1: HOOK (0:00 - 0:30)

Principle: Stop the scroll. Pattern interrupt. Make them feel seen immediately.

If you've been eating better, trying supplements, seeing specialists, and you still wake up exhausted...

If your labs come back "normal" but you don't feel normal...

Then what I'm about to share in the next 10 minutes could be the most important thing you watch this year.

Because the problem is not your effort.

The problem is where you've been looking.

SECTION 2: CALL OUT SYMPTOMS (0:30 - 1:30)

Principle: Make them feel understood before you say anything about yourself.

You're the type of person who doesn't settle. You push through. You perform.

But lately something has changed.

You wake up tired even after eight hours of sleep. You hit 2pm and your brain just... stops.

You've tried cutting carbs. Drinking more water. Taking a cabinet full of supplements.

And yet there's this persistent fog. This slow drain. Like your body is fighting against everything you're trying to do.

Maybe you've even had a doctor tell you everything looks fine. Normal. Nothing to worry about.

But you know something is off. And it's getting harder to hide from your team, your family, the people counting on you.

That frustration? That's actually a signal worth listening to. And it's telling you the same thing it told me 20 years ago.

SECTION 3: AUTHORITY + STORY (1:30 - 2:30)

Principle: Credentials come after empathy, not before. Story builds trust faster than titles.

I'm Dr. Tim Harrigan. Chiropractic physician. Functional medicine and nutrition specialist.

And I was exactly where you are now.

I watched my own health decline while doing everything the mainstream told me to do. I watched my wife be told by three different specialists that she would never have children.

She has four healthy kids today. Not one prescription. Not one over-the-counter medication. Ever.

For myself, I haven't needed a traditional healthcare provider in over 25 years. And I have the lab markers to prove it.

That didn't happen by accident. It happened because I stopped looking in the wrong place.

SECTION 4: EXPOSE THE COMMON APPROACHES (2:30 - 4:00)

Principle: Break the old belief before introducing the new one. Make failure make sense.

Here's what most people do when their health starts to decline.

They go to a doctor. They get 20 to 30 lab markers checked once a year. Everything looks fine. They're sent home.

Or they start taking medications that cover the symptom without ever asking why the symptom showed up in the first place. That's like covering your check engine light with black tape. The problem is still there. Now it's just quiet. And getting worse.

Or they try the latest diet. The trending supplement. The detox program their friend recommended.

And for a few weeks it helps. Then it stops. Because it was never designed for their body. It was designed for everyone. Which means it was really designed for no one.

Here's what bothers me most about this.

Your doctor runs 20 markers at your annual physical.

There are over 10,000 measurable markers in your body.

You are making major decisions about your health based on less than 1% of the available information.

And we wonder why people don't get better.

SECTION 5: ROOT CAUSE REVEAL (4:00 - 5:30)

Principle: The "big domino" – one central belief that makes everything click.

After 20 years of research and working with thousands of patients, I can tell you this:

There are only three root causes behind almost every chronic health problem people face.

Not twenty. Not a hundred. Three.

Number one: Deficiency. Your body is missing something it needs. A specific mineral. An enzyme. A protein. It's not getting the right fuel.

Number two: Toxicity. Something is in your body that shouldn't be. In your air. Your water. Your food. Your products. These toxins silently disrupt your cells for years before symptoms appear.

Number three: Imbalance. Your systems are out of sync. Hormones. Neurology. Gut microbiome. When these fall out of balance, everything feels off. Because everything is.

Think of your body like a high-performance car.

It needs clean fuel. No blockages. Precise calibration.

When even one of those is off, the car suffers. When all three are off at the same time, the car breaks down.

That is what's happening in your body. And no specialist looking at one system at a time will ever find all three at once.

SECTION 6: INTRODUCE THE SIGNATURE BLUEPRINT (5:30 - 7:00)

Principle: Name your process. Make it feel exclusive and logical.

This is why I developed the Signature Blueprint Protocol.

It's a comprehensive, completely natural approach that identifies and addresses all three root causes simultaneously. Not one at a time. Not one supplement at a time.

All three. Together. Because that is how your body actually works.

Here's what that looks like in practice.

Keith was an entrepreneur who had seen specialist after specialist. He found me at a trade show, overheard me talking about these principles, and asked for help.

Ninety days later he had lost nearly 30 pounds, and was performing at levels he hadn't reached in years. His words? "You saved my life."

Tish is 75 years old. She told me her body is in better condition at 75 than it was in her 40s.

Sarah's son was dealing with serious health challenges. Even from across the country, the work we did together made a measurable difference. Her words: "What a difference he has made."

These are not outliers. This is what happens when you finally look in the right place.

SECTION 7: THE BLUEPRINT CONSULTATION CTA (7:00 - 8:30)

Principle: Clear transition. Tell them exactly what happens next. Remove all friction.

Now, here is what I want to do for you.

I'd like to offer you a complimentary Blueprint Consultation.

This is not a sales call. It's not a pitch.

It's a real conversation where I review your health history, your symptoms, your goals, and I give you a personalized picture of what I believe is happening in your body based on the three pillars.

Before we even get on the call, you'll receive a detailed intake questionnaire. That lets me actually prepare for your specific situation so we make the most of our time together.

At the end of our conversation, you'll know exactly what to look for. What tests make sense for your blueprint. And what your next steps are.

That's it.

The link to schedule is below this video. Click it now. Pick a time that works for you. The form takes two minutes.

SECTION 8: URGENCY + DREAM STATE (8:30 - 10:00)

Principle: Restate the cost of inaction. Paint the transformation. Close with one clear instruction.

I want you to stop for a second and think honestly about where you're headed.

If nothing changes in the next 12 months, where will your energy be? Your focus? Your ability to show up for the people who depend on you?

How many more mornings will you push through feeling like a fraction of who you used to be?

The answer to what’s happening in your body already exists. It’s already there in your unique blueprint. We just have to find it.

You do not need another generic diet. You do not need another specialist who looks at 20 markers and sends you home.

You need a clear picture of your specific blueprint. And that is exactly what the consultation gives you.

Now I want to leave you with this.

Anne Frank once wrote: “What a wonderful thought it is that some of the best days of our lives haven’t even happened yet.”

I believe that. For every person watching this.

The energy you had at 30. The clarity. The drive. Your best days are not behind you.

But they require looking in the right place. Starting today.

Click the link below. Schedule your Blueprint Consultation.

I’ll see you there.

SECTION 9: CLOSE (10:00 - 10:30)

Short. Punchy. One instruction only.

The link is right below this video.

It takes two minutes to schedule.

Your blueprint is waiting.

Click it now.

End of script. Target runtime: 10 to 11 minutes.

VSL CHECKLIST AUDIT (v2)

Component	v1	v2
Compelling hook in first 15 sec	NO	YES
Calls out specific symptoms	Partially	YES
Avatar clearly defined	Vague	YES (entrepreneurs 35-60)

Component	v1	v2
Acknowledges flaws in common approaches	YES	YES (expanded)
Root cause clearly explained	YES	YES (tightened)
Signature process named	YES	YES
Personal story / credentials	YES	YES (reordered)
Client success stories	1 (Keith)	3 (Keith, Tish, Sarah)
Clear CTA with link	Weak	YES – l.btrr.to/dSSt6
Urgency mechanism	Vague (“spots limited”)	Emotional + time-based
Dream state painted	Partial	YES
Conversational tone	Partial	YES
No em dashes	NO	YES
No AI slop phrases	Some	Cleaned
Length	13 min	10-11 min
